TRAPPIST

Trappist beer is brewed by Trappist monks, members of the Cistercian order. Trappist is a licensed term, and currently only eleven breweries in the world may legally produce Trappist beers. The product must be made within the walls of a Trappist abbey, by monks, and the largest part of the profit must be spent on social work.

We are happy and proud that we can offer to you five of the only eleven Trappist breweries. Here is it!
